

# Lake Sturgeon Movement Study

## Location: Garden River First Nation

The Anishinabek/Ontario Fisheries Resource Centre (A/OFRC), in partnership with Garden River First Nation will be conducting a Lake Sturgeon movement study in May & September of 2023. This is an on-going project and will be conducted yearly.

The A/OFRC will be deploying telemetry receivers in the Garden River, St. Mary's River and Lake George. The receivers are capable of collecting movement information from sturgeon that have been implanted with an acoustic tag. All information gathered will be shared with Garden River First Nation and used to analyze Lake Sturgeon movement in the area.

Lead Fisheries Biologist– Ashlyne Norris

## Who is the A/OFRC?

The A/OFRC is a not-for-profit organization that serves as an independent source of information for communities within the Anishinabek Nation. The Centre provides information and recommendations for sustainable fisheries management, reports of stock status, evaluates stresses on fish populations and habitats, and offers technical support.
